

**TUCOR**

## RK SAFETY VALVE

The Tucor® RK-SV-1 normally open safety valve connects directly to RK-Pro series of irrigation controllers and closes when certain flow conditions are detected.

### FEATURES:

- Connects to any RK valve output
- Can be programmed to close on unscheduled flow and overflow detection
- Ease of installation—molded 1” NPT female pipe connections
- Working pressure to 150 PSI

### ORDERING INFORMATION:
